

# RETURN TO CURLING POLICIES FOR COVID-19

---

This living policy may change as the season, COVID-19 related events and/or further government mandates unfold.

Curl Mesabi Membership's responsibility is to self-govern using these guidelines.

## GENERAL PRECAUTIONS

### Increased Cleanliness

- Hand sanitizer and wipes will be provided throughout the club.
- Common surfaces will be cleaned frequently.
- Do your part to clean tables and other common surfaces after use.
- Disinfect shared club brooms and stabilizers after use.

The upstairs bar and restaurant will be open. Customers are encouraged to:

- Run a tab and pay it all at once to limit employees handling of cash/credit cards.
- Use a new, unused plastic glass for each beverage.
- Dispose of their bottles/glasses/dinnerware in appropriate containers.

## GAMEPLAY

Sheets will stagger starting positions to reduce crowding.

- Sheets 1, 3, 5 and 7 will start on the window end.
- Sheets 2, 4, 6 and 8 will start on the scoreboard end.

Winners clean the ice, sanitize the brooms and both sets of rock handles before leaving the ice.

Substitution rules will be relaxed. Club members can sub in any league as many times as needed.

No COVID-19 related forfeitures if the opposing team is notified at least 90 minutes before game time.

COVID-19 related games not played will not count for OR against your team. League winners will be determined on win/loss percentage.

## **REPORTING**

If you are diagnosed with a positive COVID-19 test you must inform a member of the Safety Committee: Phill Drobnick, Joe Leoni, Jeff Ralston, Steph Dowell, Steve Andrie, Keith Harvey, or Jim Newman. The safety committee will:

- Require the following information:
  - When you tested positive.
  - When you curled.
  - Who you curled against.
- Ensure your skip and the opposing skip are notified of the positive test and tell their team.

## **SCREENING QUESTIONNAIRE**

Do not enter Curl Mesabi if you answer YES to any of these questions:

- Are you waiting on the results of a COVID-19 test?
- Have you received a confirmed diagnosis of COVID-19 in the past 10 days?
- Have you had close contact with someone who has been diagnosed with COVID-19 in the past 10 days?
  - Close contact is within 6' for more than 15 minutes in a 24 hour period.
  - The contact was within 48 hours before the individual was diagnosed or started experiencing symptoms.
- Have you experienced any of the following symptoms in the past 10 days:
  - Cough
  - Shortness of Breath
  - Fever or Chills
  - Nausea or Vomiting
  - Congestion or Runny Nose
  - Sore Throat
  - Loss of Taste or Smell
  - Fatigue
  - Diarrhea
